Voluntary National Review Report  
on the Implementation of the 2030  
Agenda for Sustainable Development

June 2018

International Development Partners  
Financing Aligned to the SDGs

**“THE JAMAICA WE WANT:  
VISION 2030 JAMAICA,  
ADVANCING THE SDGs...  
LEAVING NO ONE BEHIND”**

# IDP Financing Aligned to the SDGs in Jamaica, as of June 2018

Official Development Assistance in the form of loans, grants and technical assistance from multilateral and bilateral sources supports the Government of Jamaica's policies and strategies and are aligned to the country's overall development goals as articulated under the Vision 2030 Jamaica – National Development Plan.

The SDGs were adopted by the 193 Member States of the United Nations in September 2015 and came into force on January 1, 2016. This landmark agreement envisions the creation of a better world that is free of poverty and underpinned by universal peace, where 'no one is left behind'. The SDGs are therefore an agenda to advance—People, Planet, Prosperity, Peace and Partnership (5Ps). This is not dissimilar to the overarching vision of Jamaica and the goals and outcomes contained in the National Development Plan. In fact, Vision 2030 Jamaica served as a framework for the development of the country's National Outcome Document for SDGs.

It is well recognized globally that financing the implementation of the SDGs is a complex task and requires coordination among public and private sectors, and the international development partner community, as well as coordination with civil society organizations. Coupled with coordination, is meaningful commitment of all stakeholders to advance the 5Ps. Financing of the SDGs will undoubtedly be aided by Addis Ababa Agenda—a transformational financing agenda—which provides a global framework for financing sustainable development and is an integral part of the 2030 Agenda for Sustainable Development as it recognized the importance of financing flows being aligned with economics, social and environmental priorities of countries.

Within this context, this document was prepared as a first attempt to assess the contribution of Jamaica's International Development Partners to the financing and implementation of the SDGs. The document itemizes current projects by sector and how these are contributing to the achievement of the SDGs.

## EXTERNALLY FUNDED PROJECTS AS AT JUNE 2018

NAME OF PROJECT	FUNDING AGENCY	EXECUTING/ IMPLEMENTING AGENCY	SECTOR	SUSTAINABLE DEVELOPMENT GOALS (SDGs)	OBJECTIVE	START DATE	END DATE	IDP RESOURCES (USDM)

NAME OF PROJECT	FUNDING AGENCY	EXECUTING/ IMPLEMENTING AGENCY	SECTOR	SUSTAINABLE DEVELOPMENT GOALS (SDGs)	OBJECTIVE	START DATE	END DATE	IDP RESOURCES (USDm)
I am Alive (Phase II)- An Integrated Approach to Addressing Sexual Violence and HIV Prevention, Care and Support for Adolescent Girls and Young Women in Jamaica	UNICEF	Eve for Life	Child Protection		1. Strengthen referrals and linkage to treatment, care and support for HIV+ adolescent girls and young mothers. Activities will focus on building capacities of girls, including teenaged mothers and those living with HIV to prevent adverse health outcomes, to access and demand services in accordance with their rights. 2. Support national efforts at reducing sexual abuse and exploitation of the girl child: The programme serves to expand and implement an effective intervention aimed at changing attitudes, behaviours and norms that facilitate the continued sexual abuse of girls in Jamaica.	2016	2019	0.28
Psychological First Aid	UNICEF	Fight for Peace International	Child Protection	 	The programme will strengthen the existing Fight for Peace programme in the six communities by adding community-based integrated psycho-social support services. The programme has three main components: training and sensitization of all key contacts working with young people at risk in the target communities; working directly with young people to build their resilience; advocacy to promote awareness of the importance of psycho-social support services and to integrate the development of appropriate child protection and child resilience strategies into community development programmes and policies.	2017	2018	0.31

Note: The document may have some omissions, which will updated at the end of the calendar year. It also provides an opportunity for IDPs to add, or make amendments to improve accuracy.

## EXTERNALLY FUNDED PROJECTS AS AT JUNE 2018

NAME OF PROJECT	FUNDING AGENCY	EXECUTING/ IMPLEMENTING AGENCY	SECTOR	SUSTAINABLE DEVELOPMENT GOALS (SDGs)	OBJECTIVE	START DATE	END DATE	IDP RESOURCES (USDM)
Securing The Best Interests of the Child: Legislative and Policy Reform for Child Safety and Justice	UNICEF		Child Protection		The partnership will focus on securing particular safety and justice outcomes for all of Jamaica's children, with a special focus on improving outcomes for children in alternative care and in conflict with the law, who are especially vulnerable. It responds to three deficits in the present advocacy landscape: weak coordination among key actors; insufficient independent rights-based research with specific links to actionable reform proposals; and incomplete roadmaps to creating the legislative Framework to secure those reforms.	2017	2019	0.24
There is an "I can" IN EVERY Jamaican	UNICEF	Special Olympics Jamaica	Child Protection	  	The overall aim is to better harness the SOJ network of caregivers, coaches, parents and athletes in intellectual disabilities health year round, highlight training for inclusive programming and safeguarding children through sport, and share some solutions to build healthier communities and informing families and communities and intellectual disabilities. Athletes, their families and their coaches will also learn leadership and self-advocacy skills. SOJ with guidance and technical assistance from UNICEF Jamaica will engage current and new partners to deliver these services.	2016	2018	0.07

NAME OF PROJECT	FUNDING AGENCY	EXECUTING/ IMPLEMENTING AGENCY	SECTOR	SUSTAINABLE DEVELOPMENT GOALS (SDGs)	OBJECTIVE	START DATE	END DATE	IDP RESOURCES (USDMM)
Deployment of Renewable Energy and Improvement of Energy Efficiency in Public Sector (GEF 5)	UNDP	STEM	Energy	  	This project seeks to advance a low carbon development path and reduce Jamaica's public sector energy bill through the introduction of renewable energy (RE) and improvement in energy efficiency (EE) in the health sector. The project will build relevant capacity in the public sector by increasing the knowledge base of its operatives on matters pertinent to RE and EE as well as developing the appropriate technical skills necessary to support investments in the sector. It will also strengthen the regulatory framework that governs the development and deployment of RE and EE technologies and investigate a potential mechanism involving public private partnership (PPP) that will engender a greater uptake of RE and EE.	2016	2019	1.20
Biodiversity Restoration in Portland Blight Protected Area through Community Engagement	GEF		Environment	  	To protect communities, infrastructure, livelihoods and biodiversity in the Portland Ridge area through restoration and protection of the damaged, high biodiversity dry limestone forests in the area.	2017	2019	0.04
